Your DOST *Parent Talk Series* 1/5

"Just 5 more minutes!"

They're gaming again. You're worried again. You're not alone.

We asked 100 parents about their child's online gaming. Here's what they shared, and what helped.

94% worry their child could get hooked on online games

If you've felt this too, you're in good company.

A loop many of us get stuck in

We worry, so we add rules. The fights don't stop, and the worry grows. *Sound familiar?*

Your DOST Parent Talk Series 5/5

THE WAY OUT

What helped wasn't more control. It was getting curious.

When parents understand why their child plays, far fewer feel distant from them.

Understand why they play — **48%** feel strain

Don't understand why — **79%** feel strain

Try this tonight, *just for 10 minutes*

Half of parents have never played with their kids. Tonight could be the first time.

- "What do you love about this game?"
- "Can you teach me one level?"
- "What makes it hard to stop sometimes?"

It's not about taking the game away. It's about not losing each other over it.

ASSIGNMENT 3

Founders Program

The pitch deck

YOURDOST · FOUNDERS PROGRAM

You backed the founder. Who backs them?

A private coach your founders choose for themselves. You simply open the door.

Chethan N

11:47 pm. Payroll on Friday. Board meeting on Monday.

01 THE PROGRAM IN 30 SECONDS

One coach. Every founder. Zero cost to the fund.

YourDOST's Founders Program gives founders backed by VCs and incubators a personal coach for stress, loneliness and co-founder fights. The founder chooses and pays. The investor just makes the introduction.

Our vision: every founder has a coach, just as every founder has a CA.

STAGE

YourDOST Founders page · YourDOST founder study 2024 · Tracxn (MCA filings)

02 THE PROBLEM

Founders carry the risk alone, and rarely ask for help.

WHO FEELS IT MOST

Founders of young startups, who are raising money, hiring and running low on cash at once. Only 57% feel well, vs 74% of experienced founders.

WHAT HAPPENS TODAY

Most keep it to themselves. Decisions get harder and co-founders fall out. Co-founder fights are behind 65% of failed high-potential startups.

THE EVIDENCE

49%
of entrepreneurs have lived with a mental-health condition

42.9%
of Indian founders score low on wellbeing today

15.1%

HOW TRUST IS DESIGNED

What makes it different: it is built for founders, owned by the founder and backed by 30 lakh+ YourDOST sessions. It is not just another app.

Program design and plans: YourDOST Founders page · YourDOST website (experts and sessions)

A ₹414 Cr need. ₹42 Cr reachable today.

BOTTOM-UP built from founders and what they actually pay

1. **Active startups**
   1,97,692 DPIIT-recognised - 6,385 closed — **1.91 lakh**
2. **Founders**
   × 2 founders per startup — **3.83 lakh**
3. **The full need**
   × ₹10,800 a year: a ₹7,700 program, 1.4 times a year — TAM **₹414 Cr**
4. **Reachable through partners**
   17,550 VC-backed + 31,374 incubated founders, less 20% overlap (assumed) = 39,139 founders — SAM **₹42 Cr**
5. **What we win by Year 3**
   80 partners × 60 founders × 12% (assumed), plus 400 direct = 976 founders — SOM **₹1.0 Cr**

Beyond the founder: 21 lakh+ people work at these startups. That is a ₹189 Cr team-wellness market for YourDOST's corporate business.

TOP-DOWN

founders who need support and aren't getting it

All Indian founders — **3.83 lakh**

× 42.9% score low on wellbeing — **1.64 lakh**

× 84.9% are not getting help — **1.39 lakh**

TAM
1.39 lakh founders × ₹10,800 — **₹151 Cr**

SAM
14,255 of them reachable through partners — **₹15 Cr**

SOM
7% of that by Year 3 (assumed) — **₹1.1 Cr**

A different lens: only founders with an unmet need. Our 976-founder plan is about 7% of the reachable need.

The real competitor is doing nothing.

We found no founder-only program at scale in India. Abroad, investors already pay for one.

ALTERNATIVE	WHY FOUNDERS USE IT	WHERE IT FALLS SHORT	OUR DIFFERENCE
Doing nothing	Free, private, no time needed	Only 15.1% seek help, so problems surface late	**A coach to call before it becomes a crisis**
Peer networks (TiE, EO, YPO)	Trusted, founder to founder	Not clinical, and hard to be fully open with peers	**Private, trained and clinically backed**
Therapy apps (Amaha, Lissun, Wysa)	Qualified therapists, easy to use	Built for everyone, not for founder pressures	**Made for founders and co-founder issues**
Employee programs (Optum, 1to1help)	Free through the company	Made for employees; founders rarely use them	**Built for the founder, owned by the founder**
Founder coaches (Reboot in the US, coaches in India)	Built for founders and CEOs	₹20,000-₹1 lakh a session; Reboot serves the US only	**₹1,500 a call, with psychologists on call**

POINTS OF PARITY qualified experts · private 1:1 · phone, chat, video

POINTS OF DIFFERENCE **founder-specific · founder-owned · a structured program, not a one-off session · clinical escalation**

MARKET CONCENTRATION (HHI)

WHAT THEY PAY

₹6,000 (4 wks) · ₹9,600 (8 wks) · ₹12,000 (12 wks), incl. GST

HOW OFTEN

4, 8 or 12-week programs. About 1.4 a year, as 40% come back.

COST TO SERVE

About ₹3,700 a program: coach at ₹600 a call, plus materials, support and fees.

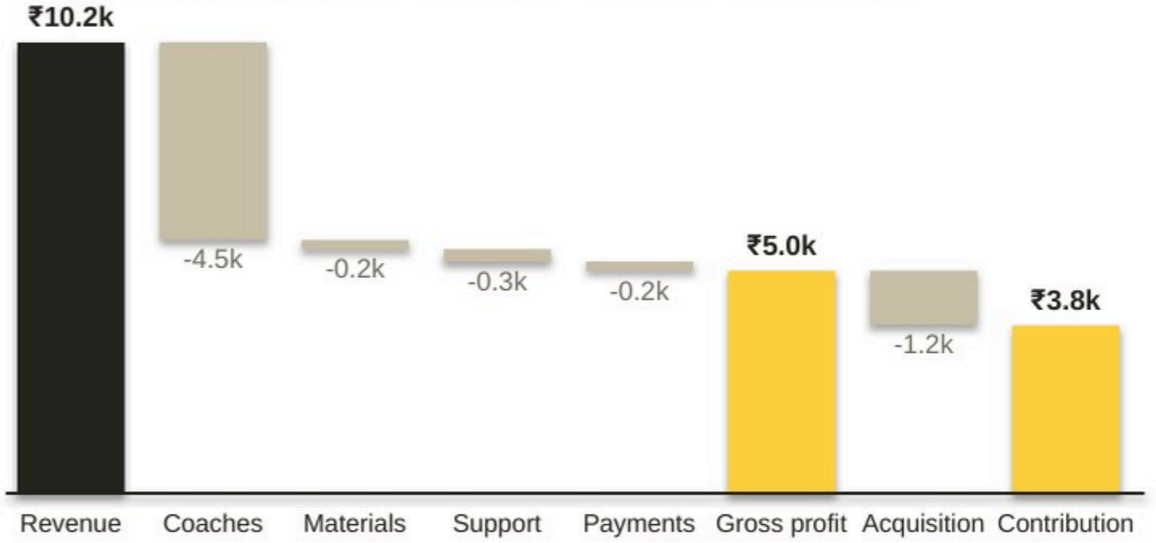

ACQUISITION

Falls from ₹3,300 per paying founder to ₹1,200 by Year 3.

RETENTION

Founders stay about 1.5 years. The same coach brings them back.

09 OUR REQUEST

Your founders give everything.
Help us be there for them.

You already give your founders money and advice. We would love to give them someone to talk to. It costs your fund nothing, and every founder decides for themselves.

HERE IS ALL WE ASK

1. **Send one email introducing us to your founders.**
2. **List us as a founder benefit, with 10% off for your founders.**
3. **Give us one hour for a free workshop on founder stress.**
